EDUCATION

Bachelor's degree, Information Systems & Technologies
2023-2027

ABOUT ME

I am an Information Systems & Technologies student with a strong foundation in IT, networking, and system administration. Passionate about learning new technologies and problem-solving, I am eager to apply my knowledge in a professional environment. Currently looking for part time opportunity to develop my skills and gain hands-on experience in the IT industry.

PROJECTS

Yakamoz UAV Website

2024

Developed and designed a user-friendly, responsive website for the Yakamoz UAV team.

Ground Control Station & UAV Communication

2025

Designed and developed a UAV ground control station in Python, emphasizing real-time electronic communication and telemetry transmission.

Inventory Management API (.NET Core) – 2025

2025

RESTful API for managing product inventory with JWT-based role authentication. Integrated with PostgreSQL and Swagger for documentation.
